A1 Quality Roof Cleaning and Restoration

Re: Roof Restoration

Dear Glenn,

As a huge fan of A1 Quality Roof Cleaning and Restoration, I was really excited to see the outcome of our Blueberry Farm house. We feel like you have just made a part of our legacy come back to life.

When we first started talking about cleaning the roof I had no idea that it would look like the day it was put on. I can remember when we were little coming to this house to see our grandparents. As our families slowly try to restore this house we can't say thank you enough for all your hard work and dedication.

Again, we appreciate your time and your experience to this opportunity to restore the roof. We know that this was not an easy task. I have also included some pictures below so that you may share the most remarkable transformation with others.

Sincerely,

Tom West Blueberry Family
